

Volunteer Opportunity Beat Back Buffelgrass and Celebrate Bat Week!!

Join Freeport-McMoRan Sierrita Operations and Arizona-Sonora Desert Museum to beat back buffelgrass and celebrate Bat Week!

WHEN: Thursday | October 26 | 7:30-10 a.m.

Buffelgrass is an invasive weed that destroys habitat for native species of grass, cactus and trees, posing a serious threat to the biodiversity of the Sonoran Desert. As part of Bat Week 2022, we will explore how buffelgrass management can help preserve habitat for native and migratory bats who depend on native Sonoran desert plants.

*To sign up or for more information,
please contact Tamra Baxter
at 520-262-7585.*

LOCATION: Meet at the West Desert Trails Entrance Gate at Trail 340 and 337. From Interstate 19 and Esperanza Boulevard: drive west on Esperanza, turn right on North Desert Bell Drive, then turn left on Golden Desert Way. The gate to West Desert Trails is at the end of Golden Desert Way.

WHAT TO BRING: Hats, sunscreen, water, gloves and sturdy closed-toed shoes or boots. Food will be provided.
